Icon Guide

Below you will find an explanation of each icon used for easy reference to identify and compare the many product features, benefits and specifications of the siding products offered by CertainTeed.

Panel Thickness:

Defines the average thickness or gauge of a siding panel which is an important element of siding quality. Thicker panels look straighter on the wall, are more durable, and hold up against impacts and high winds. CertainTeed siding products are regularly audited by Architectural Testing, Inc. to ensure they meet or exceed ASTM standards for vinyl siding.

Profiles:

Lists the number of different profiles available within each product line. A profile is the contour or outline of a siding panel as viewed from the side or end. Product profiles, such as clapboard and dutchlap, are designed to mimic the different architectural styles of wood cladding products.

Colors:

Shows the number of different colors available within each product line. The CertainTeed Siding Collection features solid colors that replicate the look of freshly painted cedar and variegated blends which provide the appearance of semi-transparent stained finish.

CedarLife™:

CertainTeed's innovative CedarLife Color Blends capture the appearance of natural Eastern White Cedar and Western Red Cedar at various life stages. CedarLife enables the selection of unique, random color patterns for one-of-a-kind exterior designs.

Wind Load:

This is the rating for the maximum wind pressure that a siding product can withstand. All CertainTeed Siding products are rigorously tested by Architectural Testing Inc. to meet or exceed ASTM standards for resistance to negative wind load pressures.

Nail Hem Design:

Identifies the type of nail hem design on a siding product. Rollovers and / or reinforcing ribs are used to stiffen the nail hem of a siding panel, giving it a straighter appearance on the wall while contributing to the wind load resistance of the product.

Panel Projection:

Identifies the full depth of a siding panel as measured from the back of the panel to the tip of the front of the panel. Deeper panel projections add rigidity to siding products while providing wider shadow lines that enhance aesthetics. This measurement is also used for proper sizing of accessories necessary to install the siding.

Texture:

Indicates available textures within each product line. Whether you are seeking the smooth appearance of milled cedar, or one of the many TrueTextureTM woodgrains molded from real cedar boards, CertainTeed offers a wide array of architecturally authentic product textures to choose from.

Lock:

Designates the panel lock design of the product. CertainTeed Siding Products feature proprietary locking designs created to optimize the alignment and installation for each specific product. The special features of CertiLock™ and DuraLock® ensure that every siding panel goes on the wall straight and secure.

Warranty:

All CertainTeed Siding Collection products are covered by a Lifetime Limited Warranty, backed by an industry leader and trusted brand for over 110 years.

Fastener Indicator:

CertainTeed is the only siding engineered to include an integral fastener placement guide on each panel. The Patented STUDfinderTM Installation System and Cedar Impressions[®] fastener indicators are designed to help ensure a safe, precise installation for maximum siding performance.

Flame Spread Rating:

Indicates products that are Class A Flame Spread Classified, meaning that the material is highly resistant to fire and does not spread flames quickly and/or is self-extinguishing.

Fade Protection:

CertainTeed offers an industry-leading spectrum of colors including unique, darker shades and semi-transparent stained blends for virtually unlimited design possibilities.

Utilizing the unique PermaColorTM System – a blend of our own CertavinTM resin, superior micro-ingredients and state-of-the-art pigment chemistry – CertainTeed guarantees Lifetime Fade Protection on our vinyl siding.

Extended Lengths:

Indicates products that are available in extended lengths, including 16', 20' and 25'. Longer length siding significantly reduces the number of seams when panels overlap horizontally, increasing the overall aesthetics of the wall.

Low Maintenance:

Vinyl siding, insulated siding, and polymer siding products are some of the lowest maintenance exterior cladding products available. Unlike other cladding products that require regular repainting, recaulking, tuckpointing, and sealing to maintain their aesthetics, CertainTeed siding products can be kept beautiful using a soft bristle brush and a bucket of soapy water.

Why CertainTeed?

Quality

Professionals agree, CertainTeed still leads the Vinyl and Polymer Siding industry

For the 19th year in a row, builders and contractors named CertainTeed Vinyl Siding Number One in the categories: Brand

in the Past Two Years; Brands

the 2015 Builder magazine Brand Use Study.

and Insulated Siding number one in Brand Familiarity; Brands Used in the Past Two Years; Brands Used Most

and Highest Quality in a 2015 Remodeling Brand Use Study.

CertainTeed Suilding Profes Familiarity; Brands Used Used Most and Highest Quality Brand in Remodeling magazine has named CertainTeed Vinyl Siding

Color Leadership

CertainTeed offers an industry-leading spectrum of colors including unique darker shades and semi-transparent stained colors for virtually unlimited design possibilities.

Utilizing the newest technology and state-of-theart formulations, CertainTeed backs their vinyl siding with PermaColor Lifetime Fade Protection.

Warranty

Simply put, if our product fails due to a manufacturing defect, we will stand behind it. To obtain a copy of our complete warranty go to www.certainteed.com

Service

Local Manufacturing

CertainTeed's vinyl and polymer building products are shipped from one of six manufacturing facilities throughout the United States, ensuring that you are rarely more than 500 miles from a factory location.

Professional Distributors

Our strong network of local distributors enables you to rest easy knowing that you will have complete access to CertainTeed's full line of exterior products.

Experienced Territory Managers

With over 250 territory managers across North America, it is easy to find a CertainTeed representative who can assist you in growing your business.

Expert Training and Education

Each year CertainTeed travels across North America putting on over 200 local training programs designed to help you increase your skills, capabilities and profit potential.

Innovation

CedarLife™ Color Blends

The beautiful colors and shades of Cedar Impressions CedarLife Color Blends are an integral component of the siding. Unlike competitive products that have color applied only on the surface, CertainTeed's proprietary, patentpending manufacturing process results in blended color through the entire shingle. The result is an authentic, blended-wood look.

CertainTeed was the first to produce siding utilizing a direct transfer system from real cedar boards, shingles and shakes to create natural TrueTexture finishes. The look of true wood craftsmanship can be created when combined with CertainTeed's Vinyl Carpentry® and Restoration Millwork®.

Installation Features

Many engineering innovations including the PanelThermometer, HammerTapper and StudFinder make CertainTeed Siding the industry leader.

Life Cycle Leadership

CertainTeed is the first siding producer to submit their Life Cycle Analysis data to be National Institute of Standards and Technology U.S. Department of Commerce

reviewed, approved, and implemented by the National Institute of Standards and Technology (NIST). CertainTeed believes a product's environmental performance should not be a mystery.

The Building for Economic and Environmental Sustainability (BEES) on-line product evaluation program allows remodelers, builders, architects, and homeowners to evaluate any building product's environmental performance. For more information, go to www.certainteed.com/LCA.

Thanced™

INspired designs that enhance aesthetics. INnovative engineering that improves performance. INtegral components that speed installation. That's the power and promise of the INhanced™ Trim Line from Restoration Millwork.

Choosing the right products for your project.

Details Create The Personality

New siding makes any house look better. But it's the unique details that truly reflect your personality. CertainTeed offers a complete selection of virtually maintenance-free exterior, accent and decorative trim products, in styles and colors designed to work seamlessly with CertainTeed's wide range of siding options.

For examples visit pages 60-69

Historic authenticity

CertainTeed's wide variety of styles, textures and colors empowers you to select the product that will deliver the architectural accuracy and beauty required for your jobs.

For examples visit pages 10-25, 30-45, 58-61, 64-67, 78-79

Industry Leading Color Palette

CertainTeed's color palette simplifies the task of combining siding and roofing with other facets of the overall design, like decking and fence, to create a cohesive look. From warm and inviting to cool and fresh, there are color palettes to satisfy every preference. Backed by PermaColor™ Lifetime Fade Protection, all of our products deliver the virtually maintenance-free performance your customers expect.

For examples visit pages 10-25, 36-43, 56-57, 62-6

Increased Outdoor Living Space

The comforts of home are no longer defined by four walls. Outside living spaces are "in" as porches, yards and gardens are transformed into beautiful open-air rooms. If you're longing for the joys of fresh air living, CertainTeed can help. Our Living Spaces® exterior products suite, including siding, soffit and accessories, porch, decking, railing, fence and roofing products, offers everything you need to create and define your own great outdoors.

Chamfer Board™ Vertical Siding & Soffit

Triple 3-1/3" Soffit & Vertical Siding

- InvisiVent® and solid styles
- The only vinyl soffit to provide more than 10 inches of net-free intake area.
- Concealed intake vents provide a smooth appearance
- Matte finish looks like freshly painted wood.
- Deep 3/4" panel projection creates sharp definition.
- 13 low-gloss colors.
- Heavy-duty .044" thickness for rigidity.

Perimeter™ Triple 3-1/3" Soffit & Vertical Siding

- Solid and hidden vent styles
- 14 low-gloss colors
- 040" thickness
- Hidden vent style provides up to 9.65"of net-free intake area

Beaded Triple 2" Soffit & Vertical Siding

- Wainscot style in solid and invisibly vented.
- Designed for vertical siding, porch ceiling and soffit applications.
- Smooth finish of professionally applied paint
- Extra-long slip-lock design helps provide secure installation.
- 8 low-gloss colors
- .039" thickness.
- 1.6" of net-free air per sq. ft.- invisibly vented

Standard vented soffit

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.

Triple 3-1/3" InvisiVent offers at least 50% more ventilation than most standard vinyl soffit, providing more than 10" of net-free intake area. This means that not only will InvisiVent provide a balanced ventilation system, but will do so with an overhang as short as 10".

- Can be painted* to complement with exterior colors.
- Cuts and mills with traditional woodworking tools.
- Class A (Class 1) Flame Spread Classification.
- Meets ICC and CCMC code requirements.
- Made in U.S.A.
- GreenCircle Certified contains recycled content.
- 25-year limited warranty.

*See Installation Guidelines RM003 for painting instructions.

InvisiPro™ Hidden Fastening System

Trimboards feature grooved millwork that precision-fits to flanges secured directly to the wall, working together with both nail hem flange and starter flange for a secure fit. The flanges are concealed, leaving only a face nail-free installation with no nail holes to fill.

Manced™ TRIM LINE

INspired designs that enhance aesthetics. INnovative engineering that improves performance. INtegral components that speed installation. This collection of decorative components delivers extraordinary advantages from the inside out. Hidden flanges, built-in J-pockets, pre-assembled column wraps and one-piece corners enable easy installation, while authentic finishes create in an incredible natural wood appearance.

Look for the IN to identify CertainTeed's INhanced products.

One-Piece Corner and Nail Hem Flange

Corners are now designed to be installed with or without a nailing flange. As part of the InvisiPro Hidden Fastening System, a nailing flange is a quick and easy way of securing corners – avoiding any face nailing of the corner.

- Hidden attachment points.
- Secures tightly to wall with screws.
- Installs before siding.
- Corners can still be used without flange.

Classic cap/base

J-Pockets and Cut-Outs

Restoration Millwork trimboards with built-in J-pocket eases installation of corner trim and the cut-out allows the trimboard to lie flush with the siding around windows and doors with built-in nail flanges.

Beadboard with TightLap™

Whether you choose 2TL or 3TL Beadboard with TightLap is designed to have a larger nailing area with the security of tongue and groove.

3TL Beadboarda full 1/3 wider for faster coverage.

Fascia trimboard with built-in return leg is designed to work with a wide range of soffit materials. Available in TrueTexture™ and smooth finish.

Sheets

Available in a full selection of custom and standard sizes and shapes, sheets can be used to create distinctive, one-of-a-kind exterior elements that are as beautiful as they are durable.

Skirtboard with DualStart® Design

Engineered with DualStart Design (patent-pending) cuts installation time while providing the 6 in. ground clearance required by U.S. building codes for fiber cement siding.

Details Create the Personality

Here are just a few of many ideas for finishing gables, windows, corners, columns, railings, porches and more. With CertainTeed exterior products, there are no limits to the unique personality you can create. And by adding just the right balance of details, you are improving the curb appeal and value of your home.

CertaWrap™ Weather Resistant Barrier

CertaWrap Weather Resistant Barrier provides an added layer of protection against air and moisture damage. It's part of the complete CertaWall Weather Deterrence System™.

- Superior air holdout for better energy efficiency.
- Optimal Permeance Rating of 11.7.
- Outstanding UV performance.
- Excellent surfactant resistance.
- Double-strength tear resistance.
- Easy handling and installation with STUDfinder™.
- Class 1(A) fire rating
- Lifetime limited warranty.
- Available co-branded with your logo! NEW

CertaWall Technology

Beauty is more than skin deep. That's especially true when it comes to building or improving a home. Protection from the elements, energy efficiency and long-term performance are just as important as aesthetics. The CertaWall Weather Deterrence System delivers those advantages. As a key component in the system, CertaWrap Weather Resistant Barrier helps assure long-term satisfaction.

CertaWrap Performance

Superior Breathability, Water Resistance and Vapor Transmission

Mold, mildew and water damage are a home's worst enemies. An effective weather barrier system defends against these problems by resisting moisture penetration and air infiltration while allowing water vapor to dissipate. CertainTeed CertaWrap offers the industry's best combination of all of these properties, helping you defend against moisture and the elements during construction, and preventing moisture buildup – from inside and outside the home – after cladding is applied.

UnderShield® Water Diversion System

UnderShield® turns an unsightly deck underside into a dry, beautiful ceiling, creating limitless options for new exterior living spaces.

New Possibilities for the Home

A beautiful deck is easy to love, from the top. Now, you can love your deck from underneath as well, with the beautiful possibilities of UnderShield.

A unique, vinyl shield and ceiling system designed to respond to the needs of building professionals and homeowners, UnderShield is easy to install to new or existing decks, and will maintain unobstructed air flow when properly installed. Panels can run parallel or perpendicular to the home, and an easy-to-use clip creates the desired pitch.

Savannah Wicker

Sterling Gray

Colonial White

UnderShield is available in beaded or chamfer panels (A). System also includes clips (B), grid system (C), fascia panels and stainless steel hardware (not shown).

- Low maintenance water diversion system.
- Easy to install adjustable grid system.
- Concealed clip system.
- Stainless steel hardware provides security and lasting performance.
- High quality vinyl panels available in 6"x 16".
- Choice of 2 panel styles and 3 colors.
- Suitable for one and two-story residential applications.
- Installs under the deck joist no need to worry if the framing is 12" or 16" on center.
- Helps maintain the required ventilation under the deck for most composite deck boards.
- Since it installs under the framing, there is no need to worry about any bracing that may have been installed between joists.
- Class A Flame Spread rating.
- Lifetime limited warranty.

EverNew® Oxford & Kingston Vinyl Railing Systems

Details Matter

Aluminum reinforced rails, precision-fit components and a wide variety of finishing accessories offers beautiful options and unmatched performance.

Aluminum rail mount brackets provide a safe and secure metal-to-metal, rail-to-post connection for greater strength and longevity.

- Classic bread-loaf rail design for both top and bottom rails.
- Available in two heights and three lengths.
- Independent tested as designated in report CCRR-0211.
- Suitable for one- and two-family dwellings and townhouses not more than three stories high.
- Lifetime limited warranty with 5-year SureStart[™] protection.

Oxford

- T"-rail top and 2x4 bottom rail system.
- Available in two heights and three lengths.
- Independent tested as designated in report CCRR-0187.
- Suitable for residential and commercial applications including multifamily and over three story installations.
- Lifetime limited warranty with 5-year SureStart™ protection.

Oxford ROUTED System

The ultimate in beauty, safety and performance.

- "T"-rail top and 2x4 bottom rail system.
- Available in two heights and three lengths.
- Independent tested as designated in report CCRR-0187.
- Suitable for residential and commercial applications including multifamily and over three story installations.
- Lifetime limited warranty with 5-year SureStart[™] protection.

Everything you need to make your vinyl railing project a success

Available Colors

*ColorLast® Dark Color Fade Protection -Our acrylic formulation provides superior protection from the harsh rays of the sun, resulting in richer color that retains its vibrant hue for years to come. ColorLast is offered in Clay.

EverNew Gate Kits

EverNew gates feature a heavy-duty internal aluminum frame for sturdy construction that's built to last and stainless steel fasteners to prevent corrosion.

Decorative Post Caps and Solar Lighting

Featuring a wide variety of metallic, powder coat and solid color finishes. For complete details, refer to CertainTeed's EverNew Decking & Railing Systems brochure (code # 40-70-425).

Oxford Railing in white with clear glass balusters.

EverNew® Panorama® Composite Railing System

True Architectural Detail

Solid construction, precision-drilled components and a wide variety of baluster options combine for an outstanding PVC capped composite system.

Panorama[®]

The Panorama capped composite railing system features a classic painted wood railing design with handcrafted authenticity and true architectural details you won't find on any other composite railing. Panorama's concealed, corrosion-resistant stainless steel hardware provides years of worry-free performance.

- Classic painted wood style with true architectural details.
- Available in two heights and two lengths.
- Available in two colors: white and almond.
- Choice of two baluster styles: square composite and decorative steel in antique bronze and oil-rubbed bronze.
- Powder-coated, hot-dipped galvanized steel decorative balusters create a rustic yet customizable system approach for both flat and stair applications.
- Suitable for one- and two-family dwellings/townhouses not more than three stories high, as determined by an independent testing agency (CCRR-0115).
- 25-year limited warranty with 2-year SureStart™ protection.
- Green Approved product by the NGBS.

Square Composite Balusters, available in White and Almond.
